FULL ARTICLE**

AuraLux™ and UltraClear® were recently highlighted in an article by TipRanks covering Acclaro Medical's expanding footprint in aesthetic medicine through conference showcases, physician education, and international adoption. The article spotlighted the company's advanced **2910 nm fiber laser technology for its customizable skin rejuvenation applications, minimal downtime, and growing global adoption**. It also emphasized Acclaro's continued investment in practitioner training and innovation as demand for next-generation fiber laser treatments continues to grow.
