

NEWBEAUTY® ×  UltraClear®

NEWBEAUTY® AWARD-WINNING IN-OFFICE TREATMENTS WORTH THE INVESTMENT

UltraClear® was recognized in NewBeauty's 2026 Beauty Awards within the "In-Office / Post-Procedure" category, highlighting its role as a next-generation advancement in laser resurfacing technology. The feature emphasizes UltraClear's cold fiber laser platform, designed to improve skin texture, fine lines, wrinkles, and acne scars while minimizing thermal impact to help reduce the risk of pigment-related concerns.

Positioned as a go-to solution for a wide range of skin tones, UltraClear® is noted for its ability to deliver effective resurfacing outcomes with a more comfortable treatment experience and minimal downtime. The award underscores its growing adoption among aesthetic providers seeking versatile, high-performance solutions in modern skin rejuvenation.
